

SINAL 2014
Participants list

ACRDM

President

independent laboratory of analysis, consulting and R&D in the field of metallurgy, ceramics and organic composites

France

ADDIPLAST SAS

Sales Director

formulation, flame retardant and pre coloured compound based on prime quality polypropylene, polycarbonate and polyamide. Trade names are ADDILENE, ADDITER & ADDINYL.

France

AGRIA LORRAINE

Project Manager

Regional Centre for Innovation and Technology Transfer in non-food crop products (VANAPA)

France

AGROBIOBASE

Business intelligence officer

Website dedicated to biobased products, Agrobiobase guides you through hundreds of products, by:

- facilitating your sourcing,
- informing you with key datas (biobased content, environmental impact, technical information sheets, etc.)

France

AGROCOMPOSITES ENTREPRISES

Projets Manager

AgroComposites Entreprises propose global industrial solutions in agromaterials, from the idea to the realization, thanks to pooling expertise of each society member .

AgroComposites Entreprises covers all chain value : from engineering department to production

AgroComposites Entreprises suggests to you some formations in ecoconception or biomaterials. The association do your CLA and Products Assessments. AgroComposites Entreprises support you during your agromaterial conception projects.

France

AKONITE

Designer

Design, eco-design, Design of new products made of composite material

France

ALFA LAVAL

Sales Engineer - Separation and Agro-Pharma

Creating the best heat transfer, separation and fluid handling technologies in the world for a 130 years, Alfa Laval's products and solutions are used in such areas as food and water supply, energy, environmental protection and pharmaceuticals.

France

AMBASSADE DU ROYAUME DES PAYS-BAS

Office of Agriculture

Agro & Food, Innovation and Trade services.

The Embassy of the Netherlands in Paris can facilitate your business contacts with agro-industry, chemistry and research in the Netherlands.

France

AMIENS METROPOLE

Project manager - Department of Economic Development and Higher Education

The aim of the departement is to facilitate procedures and establishment for companies.

France

ANDRITZ SEPARATION

Market Manager - Chemicals and Food Department

The ANDRITZ GROUP is a globally leading supplier of plants, equipment, and services for hydropower stations, the pulp and paper industry, the metalworking and steel industries.

France

APTAR

Innovation Manager

- Innovative dispensing solutions: Food / Pharmacy / Beauty&Home.

-

France

ARCAD/PQE - AGENCE REGIONALE DE LA CONSTRUCTION ET DE L'AMENAGEMENT DURABLES

Director

Agency for Sustainable Construction and installation in Champagne Ardenne

France

ARD SA

General Manager

ARD is a mutualised private research structure, owned by major players in French agribusiness as well as regional farming cooperatives. It was created in 1989 to find new opportunities for creating value from its shareholders' produce (cereals, sugar beet, alfafa, oilseeds, etc.).

France

ASSOCIATION DES TECHNOLOGIES ET DES HOMMES

Deputy Director - Economic Development

The association promotes transfer technology, techniques and emerging know-how to Châlons-en-Champagne industries (Mainly SME's)

France

AXSON TECHNOLOGIES

Scientific Director

AXSON Group is a world leader in high performance polymer formulation. The three different BUs, Axson Coatings, Axson Revocoat and Axson Technologies, specialise in innovative solutions for design, creation, assembly and protection in industrial transport, energy, water, sports and leisure, construction and infrastructure markets.

France

SINAL 2014
Participants list

BIC CONTE

Buyer

Writing, Marking, Coloring & Drawing

France

BIO ATTITUDE

General Manager

Bio Attitude manufactures and markets "green products" based on the use of renewable raw materials, agricultural origin: industrial detergents, household detergents,...

France

BIOLIE

President

BIOLIE specializes in White Biotechnology and has developed a clean solvent-free enzyme-assisted aqueous extraction technology of oils and vegetal actives. This technology is protected by an international patent and can be applied to all types of vegetables.

This concept of biorefinery leads to the valorization of all products issued from the process (oil, active ingredients, protein-rich flour, aqueous extracts, concentrates...).

BIOLIE is offering high standing oils, active ingredients and vegetal extracts to the markets of cosmetics, nutraceuticals and food.

France

BIONACTIS

PDG

BionActis develops adiabatic technologies for green chemistry applications.

Switzerland

BIORIZON (GREEN CHEMISTRY CAMPUS, BERGEN-OP-ZOOM)

Scientific Manager

Process technology for the biobased economy. Especially conversion of lignin into biobased aromatics.

The integration of conversion and separation processes (e.g. in situ product recovery).

Belgium

BOCCARD

Marketing Manager

Boccard has established itself, in France and throughout the world, as a major player (world Leader) in the implementation of increasingly complex and innovative industrial facilities.

By positioning our self as the sole industrial integrator in for the oil & gas, nuclear, and other energy markets, as well as for the food and pharmaceutical markets (wine and other beverages, brewing, food products, cosmetics, pharmaceuticals, and biotechnology)

France

BONGRAIN GERARD

Purchasing and Packaging Development Manager

One of the top transformer of milk in Europe and Worldwide

France

BOUCHARD PERE-ET-FILS

Buyer

Great wines of Burgundy (Domain and Trading)

France

BRODART PACKAGING

R&D Manager

Flexible converter for packaging

France

C&B INNOVATIONS BV

The Netherlands

CADEV

Business Advisor

CADEv (Champagne-Ardenne Développement) provides complimentary assistance throughout all phases of your investment project

France

CANSON

Technical Director

school pack, technical drawing paper, fine art printing paper, papers for digital art printing and photos, etc.

France

CARBONETEX

Manager

consulting company specialised in environmental issues for the Textile and Clothing Industry.

France

CARINNA - AGENCE POUR LA RECHERCHE ET L'INNOVATION EN CHAMPAGNE ARDENNE

Head of Europol'Agro Department

CARINNA is the Champagne Ardenne Research and Innovation Agency providing services for research laboratories and companies. Europol'Agro makes full use of scientific and technological resources in Champagne-Ardenne for the development of bio-based industries through innovation and the sustainable exploitation of large-scale farming crops, as well as the world renowned Champagne vineyard.

France

CARRIÈRES ET BALLASTIÈRES DE NORMANDIE (GROUPE VINCI)

Environmental Engineer

Aggregates production for concrete. Material recycling

France

SINAL 2014
Participants list

CCI CHAMPAGNE ARDENNE

Sustainable Development and Performance Manager

CCI Champagne-Ardenne, with ARIST Service - Regional Strategy and Technology Information Agencies - (Member of Enterprise Eruope Network) supports regional companies in their innovation and helps them to differentiate from the competition.

France

CCI DE CHALONS EN CHAMPAGNE

Industry Department Manager

Consulting, supporting and premises providing for innovative companies

France

**CENTRE OF EXPERTISE OF PLANT COMPOUNDS
(KENNISCENTRUM PLANTENSTOFFEN)**

Director

Center of expertise of plant compounds

The Netherlands

CENTRE TECHNIQUE DU PAPIER

R&D Engineer

Industrial Technical Centre whose strategic missions are:

- PROMOTING THE DEVELOPMENT OF THE PRODUCTION AND CONVERTING INDUSTRY of Pulp, Paper and Board,
- MAKING PROGRESS IN KNOWLEDGE OF SCIENCES AND TECHNOLOGIES:

France

CEVA TECHNOLOGIES

Technical Salesman

Injection and tooling

France

CHARENTE DEVELOPPEMENT

Project Manager

Economic development Agency : search for investors, local community support

France

CHATEAU DU BOIS - DUMAS

Operation Manager

producer of wine

France

CITÉS EN CHAMPAGNE

Economic Development Director

Since 2014, Châlons-en-Champagne and its surrounding cities (the Metropolitan Area of Châlons-en-Champagne) is made up of 38 councils. Situated at the A4-A 26 intersection, 25 kilometers from the Paris-Vatry freight airport, it is currently developing the rail mode with the setting up of a Short-haul Rail Operator.

This intermodality is a logistical strength at the heart of a production and consumer base that encapsulates half of the European GDP in a 450 km radius, or 6-hour drive.

France

CLEXTRAL GROUP

Market Manager, Process Manager

Twin screw extruder manufacturer and process development

France

CLUSTER VALBIOM CENTRE

France

COMITE INTERPROFESSIONEL DU VIN DE CHAMPAGNE CIVC

Environmental projects Manager

The Comité Champagne is the trade association that represents the interests of independent Champagne producers (vignerons) and Champagne Houses. Its mandate is to promote the vines and wines of Champagne through a broad remit that includes: economic, technical and environmental development; continuous quality improvement; sector management; marketing and communications; and the promotion and protection of the Champagne AOC across the world.

France

COMMUNAUTE DE COMMUNES DE L'AGGLOMERATION DE SARREBOURG

President

Community of communes

France

COMMUNAUTE DE COMMUNES DE VITRY LE FRANCOIS

Economic Development Director

Development, maintenance and management of business parks, industrial area, commercial zones, tertiary activity, or tourist areas

France

CONSEIL GENERAL DE LA MARNE

Deputy Director General

Territorial Authority

France

CORI ASBL

Director

CoRI's mission is to provide assistance, help, support and services by offering ad hoc analysis and measurements, problem-solving, contract research, technical assistance and training to paint manufacturers, raw materials suppliers, professional applicators and industrial users.

Fields of expertise: adherence and adhesion, colorimetry, corrosion, durability, internal stresses, mechanical properties, nano-technology, paint formulation, powder coatings, rheology, smart coatings, sol-gel technology, UV and EB technologies, waste valorisation.

Belgium

SINAL 2014
Participants list

CRISTAL UNION

R&D Manager

Cristal Union Group is a cooperative representing about 40% of beet production in France and operates four main businesses :
Sugar used for industry and the food sector (Daddy and Erstein)
Alcohol and ethanol (carburization, manufacturing, perfume-making, cosmetics, food, spirits)

Natural, antioxidant products with high added value for the pharmaceutical and nutraceutical industries, food supplements and oenology products (polyphenols, resveratrols, etc.)

Dehydrated products for animal feed

France

**CRITT MATERIAUX DEPOTS ET TRAITEMENT DE SURFACE -
CRITT MDTs**

Project Manager

CRITT M.D.T.S. is a technological research laboratory providing you with experts in materials, coatings and surface treatments

France

**CVGPN CENTRE DE VALORISATIONS DES GLUCIDES ET
PRODUITS NATURELS**

Technical Department Director

Research and transfer technology center. Food applications (nutraceuticals, ...) and non food applications (cosmetics, fine chemistry, ..)

France

DACOM BV

The Netherlands

DAHER SOCATA

Design leader

Aircraft Aerostructure design office

France

DESIGN9

General Manager

Engineering and industrial design department specialised in Environment

France

DIRECCTE CHAMPAGNE ARDENNE

Economic Development

France

DISTILLERIE JEAN GOYARD

R&D Manager

services for wine growers, the production of specialties and grape by-products for industry, and the manufacture of spirits and table oils for retail.

France

**DLG - GOVERNMENT SERVICE FOR LAND &
WATERMANAGEMENT**

Senior Advisor BBE & Rural Planning

Developing an education program on the potentiel of biobased materials in transition to circular economy

The Netherlands

DUNKERQUE PROMOTION

Project Manager

Implementation and development projects management in Dunkirk and Dunkirk harbour.

France

ECN

Business developer

Applied R&D in bioenergy and biobased - Problem solving , Technology Development, Studies & Policy support - Consulancy & services, contract R&D, Joint Industry Projects, Technology development & Transfer

The Netherlands

ECOLE CENTRALE DE PARIS

France

ESITPA ECOLE D'INGENIEURS EN AGRICULTURE

Researcher

Research unit: AGRI'TERR Territories & agro-ecology
The LGMA team of the AGRI'TERR reseach unit implements and studies 100% natural and biodegradable agro-materials to promote agricultural or agro-industrial by-products and help them develop on non-food markets.

France

ETHNICAL CARE

CEO

Design, develop and market dermo cosmetics ranges from plant-based innovative active ingredients

France

EUROCOB

Marketing Manager

European leader in industrial corn cob transformation. ur vocation is to transform a natural raw material in a range of products with high technical features, dedicated to various and demanding markets. Most of our final products are used in animal health, cosmetics, chemistry, polymers and industry.

France

F.G.I.

Sales Manager

Manufacturing and distribution of sticky labels, Consumables and thermal transfer films

France

SINAL 2014
Participants list

FCBA

Project Manager, technology Transfer

Research & Development, Expertise, analyses, certification for the wood industries : extraction of molecules, fibres and fibres derivatives from lignocellulosic materials for use in the production of papers/boards, panelboards, insulating panels.

France

FCBA

Research Manager - Chemistry and Biobase materials

The French technology institute for forestry, cellulose, wood construction and furniture

France

FIBRES RECHERCHE DEVELOPPEMENT - FRD

Innovation materials Project manager

FRD is a private, leading Technical center in the evaluation of the vegetable fibers for application materials. FRD develops new solutions adapted to the reinforcement of composites or building materials

France

FIMALIN

Administrative Manager

FIMALIN has the objective to position the technical linen in the third fiber of composites after glass and carbon, opening the way to eco-polymers, eco-composites and in the creation of a new agro-industrial sector

France

FLAX COMPOSITES

President

Biobased raw materials and semi finished composites.

France

FLEURY MICHON TRAITEUR

R&D Director

Fresh deli products supplier. Fresh prepared meals

France

FLOTTWEG FRANCE SAS

Sales Manager

Centrifuges decanters (solids / liquid / liquid) for liquid with high solids content. Disc centrifuges (solids / liquid / liquid) for liquid with low solids content. Belt press

Experience of an International Group and know how in all fields of solid/liquid Separation. High speed (up to 10.000g) and sanitary decanters

France

FROMAGERIES BEL

Purchasing Manager

Cheeses - Looking for solutions to maximise the value of by-products of cheese making process

France

FUTURAMAT

Director

Vegetable based polymers

FuturaMat is passionate

about creating natural alternatives for smart solutions in a wide range of applications

France

GLATT INGENIEURTECHNIK GMBH

Technical Sales Engineer

Leader in fluid bed technology

Process technologies: Agglomeration / Granulation, Coating, Pelletizing, Encapsulation, Drying, Sieving, Blending

Germany

GRAVOTECH MARKING SAS

Production Manager

Global leader in the design, manufacturing and distribution of innovative solutions for engraving, marking and artistic modeling.

France

GREEN RESEARCH

France

HYDRACHIM

Laboratory Manager

Manufacture, packaging and sale of cleaning and maintenance products, industrial | Water treatment products

France

IFP - ENERGIES NOUVELLES

Regional delegate - Relations SMES/SMIs

IFP Energies Nouvelles is a public institution of research and development. Its mission is to develop the technologies of future in the domains of the energy, the transport and the environment.

France

IFTH - INSTITUT FRANÇAIS DU TEXTILE ET DE L'HABILLEMENT DE TROYES

Technical Salesman

IFTH offers a range of solutions for the development of new products or processes for the different markets: Transport, Health, Apparel or Building. In order to assist companies in their innovation approach, the Institute has developed a network of service platforms for industrial Textile, Apparel and Technical Textile companies.

France

IFTH LILLE

Sales Manager North Europe

IFTH offers a range of solutions for the development of new products or processes for the different markets: Transport, Health, Apparel or Building.

France

SINAL 2014
Participants list

IMCD FRANCE SAS

Sales Engineer

MCD France, formerly known as SPCI, is a leading distributor for specialty chemicals and food ingredients

France

IMERYS/AGS

Biomass buyer

specialist in the mining, processing and marketing of clay-based minerals purchase of biomass (wood)

France

INERIS

Regional Officer

studies and research programmes aimed at preventing the risks brought about by economic activities on health, the safety of persons and property and on the environment, and to provide any services intended to facilitate the adaptation of companies with this objective in mind.

Apart from General Management, INERIS has 4 operational departments:

- Chronic Risks Department
- Accidental Risks Department
- Ground and underground Risks Department
- Knowledge Building and Marketing Department

France

INOCULUM PLUS

Sales

innovative company which offers biological alternatives to chemical input in plant production: mycorrhiza

France

INSTITUT CARNOT 3BCAR

3BCAR Project Manager

The Carnot Institute 3BCAR, bioenergy, biomolecules, biomaterial brings together over 500 researchers and offers to industrials a range of integrated skills of the plant to the product through processes. 3BCAR's expertise covers four following areas: Biomass and green biotechnology, White biotechnology and building blocks, Energy systems and functionalization; Sustainable design

France

INTERNATIONAL PLASTIC INDUSTRIE (IPI)

Managing Director

Designer et manufacturer of ephemeral tableware

France

ITERG

Lipochemistry Projects Manager

Expertise in fat and oils (analysis, refining, oleochemistry, nutrition) for cosmetic, food and chemical industries

France

ITM ALIMENTAIRE INTERNATIONAL

Packaging innovation

Supermarket

France

J. RETTENMAIER & SÖHNE FRANCE

Sales Assistant

World-wide leader in the fiber industry. Through intense research and development, the former grain and saw mill has expanded dramatically incorporating specialized, highly technical pulverizing, fractionating and refinement processes.

21 manufacturing facilities supply the international market with wood cellulose, fruit and grain fibre products in a variety of forms including fibres, powders, granules, chips, and agglomerates

France

LA FIEE DES LOIS

Project Manager

Water and wine bottler

France

LEBAS INDUSTRIES

Sales and Marketing Manager

Design and construction of production units for biotechnological, pharmaceutical, chemistry or food industries.

Consulting, Engineering, General contractor (EPC).

France

LES CHANVRIERS DE L'EST (CDE)

Business Manager

CDE is a company founded in 2007 by a group of farmers who reintroduced the hemp culture in the Lorraine and Alsace landscape. Quickly, a local production tool was necessary, encouraged by the potential regional markets. CDE has developed a unit for soft grinding hemp straw preserving the integrity of the fibers. CDE doesn't go to the traditional markets (paper industry) and look through the new needs in the sectors of plastics and composite materials industry,...

CDE is a BtoB company on the technical fibers, hemp shives and powder markets. A goal, CDE plans to transform other resources like oilseed flax straw, nettles

France

LICD BIOWARE

R&D Manager

Subcontractor of cosmetic products (natural, dermatological, cosmeceutical ...) offering the full package (departments of research & development, manufacturing, legal, marketing, finance ...)

France

MDB TEXINOV SA

Sales Manager

Engineering and production of warp-knitted textiles.

France

MEUBLES DEMEYERE

Purchasing Director

European leader in furniture manufacture

France

SINAL 2014
Participants list

MSA THE SAFETY COMPANY

Biobased projects Manager

Mine Safety Appliances, or MSA, is a maker of sophisticated safety products that help protect workers who may be exposed to a variety of hazardous conditions. The company's product line includes gas monitoring and detection instruments, filter-type respirators, gas masks, breathing apparatus used by firefighters, thermal imaging cameras, firefighter helmets, ballistic body armor, military communications systems, a broad range of industrial head and fall protection products, and safety products for Do-It-Yourself consumers. Key markets include construction, military, fire service, chemical production, oil and gas, and general industry.

France

NASKEO ENVIRONNEMENT

R&D Director

Specialist in energy recovery by anaerobic digestion of organic deposits and biogas production.

- Building biogas plants (CHP, injection, boiler)
- * Mastery of implementation process
- * Key in hand process

- Office :

- * Before project summary (APS) : studies of technical and economical feasibility, studies of organic waste processing, study of use of the digestate , field survey, study of biogas valorization, conception of folder subsidie , ICPE folder: environmental regulations and obtaining administrative authorizations.
- * File Request Authorization to Operate (DDAE) : authorization, record.
- * Preliminary detailed (ODA) : engineering studies, electrical connection.
- * Health Accreditation : realization of health approval file for the installation of biogas plants.
- * Assistance to the Owner (AMO) : for the treatment of liquid effluents or for the construction of CNG stations.
- * Assistance in the preparation of heat contract.
- * Audit and expertise on existing installations.
- * Study and analysis of the valuation of CO2.
- * Sensitivity analysis on different biogas purification technologies

France

NATUREPLAST

President

Natureplast (and her sister company www.biopolynov.com) specializes in following plastics converter or outsourcers who want to develop and integrate products or packaging in bioplastics.

France

NEO ECO

R&D Manager

Environmental Engineering at the service of specialist in waste recovery

France

NEWFOSS

Director

The core activity of NewFoss includes the re-use and conversion of leaves and grassy biomass waste materials to reusable sub-materials. In a specially developed plant using a patented cold-wet refinery technique, these waste materials are separated into the following 100% re-usable sub-materials:

- A wood fibre, which can be used as bio-fuel or component in the fibre industry (paper, insulation material, chipboard, etc.)
- An organic juice concentrate from which gas (amongst others) will be extracted, via a fermentation process and/or ethanol production (other applications are being investigated)
- A mineral juice concentrate where all fertilizers which were absorbed in the plants are concentrated to a liquid fertilizer (to be split further in high quality mineral materials)

The Netherlands

NOV&ATECH

Sales Manager

strengthen the partnership between research and economic actors in agriculture, agro-industry and development of Normandy through the identification and management of innovative joint projects.

France

OBERTHUR TECHNOLOGIES

Technical Engineer

Smart card manufacturer / Application softwares / Smart cards personalization.

France

ONTEX FRANCE

Packaging Manager

Hygienic disposable products. With a focus on quality and innovation, we offer a wide range of products for baby care, feminine care and adult care

France

ORINEO

Director

Orineo conceives, develops and produces novel bio-based materials, starting from a range of natural powders and binders, as well as various natural residues.

By combining both functional and aesthetic (touch, structure, color...) properties, those materials could be used in several applications such as furnitures, transport & automotive, packaging, building & construction, appliances, design products...

Belgium

ORINEO

General Manager

Orineo conceives, develops and produces novel bio-based materials, starting from a range of natural powders and binders, as well as various natural residues.

By combining both functional and aesthetic (touch, structure, color...) properties, those materials could be used in several applications such as furnitures, transport & automotive, packaging, building & construction, appliances, design products...

Belgium

SINAL 2014
Participants list

PAPETERIE DE RAON

Associate Director

Producing recycled paper high quality / Specialist recycled paper suitable for food contact / Holds certification APUR 100% / Pioneer in the promotion of polyethylene

France

PIERRE FABRE DERMO COSMETIQUE

R&D Director, active ingredients and raw materials

Manufacturer of cosmetics

France

PIERRE FABRE DERMO COSMETIQUE INSTITUT DE RECHERCHE

Director of the Centre de Développement des Produits Végétaux

Research and Development, herb extracts for pharmaceutical and cosmetic field

France

PLASTY CREATION

Associate

Cover and protective cover in soft material

France

PÔLE IAR (INDUSTRIES ET AGRO-RESSOURCES)

Territorial coordination and Training Manager

The IAR Cluster is focused on two priority issues:

- becoming the European benchmark for agro-resources and their industrial transformation by 2015
- being recognised as the 'showcase' region for biorefining and the use of agro-resources.

Committed since its creation to developing plant chemistry and industrial biotechnology, the IAR Cluster is now concentrating its efforts on deploying competitive biorefineries: a source of regional economic development.

France

POLYREY

R&D Manager

Manufactured and developed technical and decorative laminates

France

PROCESS DESIGN CENTER BV

The Netherlands

PROSERPOL

General Manager

Treatment and recycling of liquid effluents

France

PROTEUS

Marketing Director & Business Development

Biotechnology company which focuses on the discovery, engineering and manufacturing of proteins of industrial interest, and on the development of innovative protein-based bioprocesses.

France

PROVINCE OF DRENTHÉ

Policy Advisor

Policy advisor for the province of Drenthe; especially on biobased and plant value

The Netherlands

PSA PEUGEOT CITROEN - CENTRE TECHNIQUE DE VELIZY

Green Materials Manager

Specialist interior trim - Pilot Study Innovation Directorate of Research and Advanced Engineering

France

REGION CHAMPAGNE ARDENNE

ERDF project manager

Champagne-Ardenne region

France

RENAULT TECHNOCENTRE

Cabin Materials Innovation Project Manager

Car manufacturer (Products, Design, Engineering, Purchases)

France

RESCOLL

R&D Project Manager

Technological center working in materials development. RESCOLL is involved in polymeric products and materials, composite materials, adhesives

France

ROQUETTE FRERES

Pre-industry development

One of the 5 world leaders in the starch manufacturing industry

France

ROQUETTE FRERES

Directeur Unité d'Exploitation Amidons

One of the 5 world leaders in the starch manufacturing industry

France

ROVALTAIN RESEARCH COMPANY

Scientific

Pole-Ecotox is an association which is responsible for the development and construction of a research and contract services facility in the Rovaltain Scientific and Technological Park in the department of Drôme, France.

France

SINAL 2014
Participants list

ROYAL COSUN

The Netherlands

RPA PROCESS

Area Sales Manager

- Manufacturer of mixers (batch & continuous) for high viscosity products, of vacuum belt filters, vacuum drum filters. Services & Engineering for these products.

- Services & Engineering.

France

SALOMON SA

Ski Material and Tool Box Manager

Development and manufacturing of sporting goods

France

SAPPI NIJMEGEN

Manufacturing Specialist product development

Paper production - product development

The Netherlands

SARTHE DEVELOPPEMENT

Project Manager

Sarthe departmental tourist and economic development agency

France

SEINE MARITIME EXPANSION - ADESM

Business Manager

Seine-Maritime Expansion is composed of a team of specialists in economic development and project engineering. Its remit is to serve local businesses and authorities by helping them to bring their development projects to fruition and thereby contribute to job-creation.

France

SEML VALAGRO CARBONE RENOUEVABLE POITOU-CHARENTES

Research Director, Biobased materials chemistry

Valagro is a R & D center dedicated to biomass, byproducts and industrial waste valorization.

France

SICOMIN COMPOSITES

R&D Manager

Epoxy resins / Composites raw material

France

SNC-LAVALIN

France

SOCAD

Director

Flagship project from Franche-Comté Territory, Innovia aims to serve innovation and green growth

France

SOCOTEP

Director

PVC foil for customers in stationary, packaging, printing and various other businesses.

France

SOUFFLET ALIMENTAIRE

CATALIP Projects Manager

The Soufflet Group is a French agro-industrial group, specialising in the collection, trading, and transformation of cereals.

Group cereal expertise, knowledge and selection of cereals, value addition to cereal co-products

France

SPARFLEX - FLEXALU

R&D Manager

Sparflex creates and produces all the elements making the packaging of bottles of wine and spirits: sparkling foils, wirehoods, labels, capsules.

France

STS - SURFACES TECHNOLOGIES ET SERVICES

General Manager

Jigs for surface treatments, smart coatings and "green" stripping process

France

SUD OISE DEVELOPPEMENT L'AGENCE (SODA)

Project Manager

The high-tech, the innovating industries and the sustainable development have replaced the Sud-Oise traditional industries. Sud-Oise has also an exceptional economic and human potential thanks to numerous scientists, engineers and students.

It is in this context of industrial effervescence that Sud Oise Développement, l'Agence (SODA) was born.

SODA introduces you to the market and facilitates public, business and technological partnerships:

France

SWISS BUSINESS HUB C/O AMBASSADE DE SUISSE

The SBH France is a public organization responsible for assisting Swiss companies in developing their business on the French market. In that purpose, the SBH France offers specific services to small and medium-sized enterprises (SMEs) from Switzerland and Liechtenstein:

France

SYDEME (SYNDICAT MIXTE DE TRANSPORT ET DE TRAITEMENT DES DÉCHETS MÉNAGERS DE MOSELLE-EST)

Communication Manager

Household waste transportation and treatment of Moselle East.

Bio-waste recovery into compost, liquid fertilizer or renewable energy

France

SINAL 2014
Participants list

**SYDEME (SYNDICAT MIXTE DE TRANSPORT ET DE
TRAITEMENT DES DÉCHETS MÉNAGERS DE MOSELLE-EST)**

Managing Director of Services

Household waste transportation and treatment of Moselle East.
Bio-waste recovery into compost, liquid fertilizer or renewable energy
France

TCE GOFOUR BV

President

Eco-friendly' green products and services for industries such as Defense,
Aerospace, Automotive, Shipbuilding, transportation and the building
industry.
The products are used to reduce soot, lower fuel consumption, enhanced
power production and lower maintenance on engines. The goal for France
is to provide companies and consumers with user-friendly and durable
solutions.
The Netherlands

TERRENA PÔLE AGROALIMENTAIRE

By-products valuation Manager

Food department of Terrena Group. Slaughtering and primary processing
in beef, pig, poultry
France

TEXAA SA

Materials Manager

Supplier of acoustic solutions mainly for public buildings where an
acoustical correction is needed.
Development and manufacturing of acoustic panels, wall and ceiling
covering solutions, and sound absorbing design objects to enhance the
sound treatment and design of the architecture.
France

TOTAL NEW ENERGIES DIVISION

Scientific adviser - Chemistry

R&D in biofuels, Plantbased chemistry, biopolymers, photovoltaics
hydrogene
France

TREE POWER

Director

Developer of biofuels plants for the conversion of second generation
biomass into pyrolysis oil
The Netherlands

UNDV - UNION NATIONALE DES DISTILLERIES VINICOLES

France

**UNGDA - UNION NATIONALE DES GROUPEMENTS DE
DISTILLATEURS D'ALCOOL**

Project Engineer

UNGDA represents all the French producers of alcohol derived from sugar-
beet, cereals, vine products, and also from sugar-cane for the French
overseas territories.

As a technical centre for the profession, UNGDA is involved in R & D
programs under the control of a Scientific Committee and a Steering
Committee.

A strategic quality-control activity of products coming from the distilleries
or containing ethanol is also carried out by the laboratory.
Finally, specific service missions (studies, advice, training, Kamoran®, etc.)
are carried out within the profession, and also with clients across the
globe.

UNGDA is also the interface for the profession with the French and
European administrations for all ethanol-linked technical issues
concerning safety, legislation, or standardisation.

France

USURI SARL

Manager

The range of skin care oils developed by USURI carries the COSMEBIO
stamp and is certified natural and organic cosmetic by ECOCERT Greenlife,
according to ECOCERT standard

France

VAN DE BILT ZADEN EN VLAS BV

Export and Innovation

Breeding & selection of fibre- and oilflax varieties
Cultivation & processing of fibre- & oilflax
Supplying of different types of fibres towards the textile and composite
industries

The Netherlands

VEGEPLAST

France

VEGEPLAST

R&D Engineer

VEGEPLAST is specialized in the design and production by injection
molding of biodegradable technical pieces and packaging.

VEGEPLAST has acquired a specific experience in the VEGEMAT®
processing, a 100% biobased, biodegradable and compostable
agromaterial. VEGEMAT® is formulated depending on the mechanical and
physical constraints of the requested piece.

France
